

Innovative ideas & industrial experience paired with successful companies –  
We shape the future with our customers

## **Consultant (f/m/d) in the field of mechanical and plant engineering**

**Period of service:** immediately

**Location:** Leonberg, Germany

IMIG Industry Consult GmbH is a member of the International Management and Innovation Group AG. IMIG is an internationally successful consulting company with headquarters in Germany and international branches in Europe, America, and Asia. We work strongly solution- and implementation-oriented and support our customers in the sustainable improvement of business processes – and this since 1998. We offer our customers tailor-made solutions customized to their specific requirements, which lead to an increase in their competitiveness. We support our employees in their personal development with the help of jointly coordinated career plans and targeted internal and external qualification measures.

### **Your new challenges:**

- For projects, you take over the analysis, planning and implementation of individual solutions for the sustainable improvement of the performance of our customers
- You develop concepts tailored to the customer's requirements and convince with your expertise and innovative ideas
- In projects, you take over responsibility for larger modules at an early stage and act as a team player
- With workshops and trainings you create added value for the project and the customer
- From top management to shop floor - you act confidently with different hierarchies and cultures of a company
- Mechanical and plant engineering is your core industry, which does not stop you from successfully getting involved in other industries, such as automotive
- You contribute your ideas to the team of the globally organized IMIG for the development of new consulting approaches and implement them until successful application
- You recognize opportunities for new projects and support your colleagues in the systematic acquisition

### **Your profile:**

- 5-8 years of consulting/professional experience in various project tasks and/or equivalent experience in a leading position in industry with a focus on mechanical and plant engineering
- Very good knowledge in the design, implementation and optimization of business processes
- Very good knowledge in optimization in the field of product development/design/engineering through the use of lean and agile methods, e.g. process mapping, frontloading, SCRUM, variant management, DFSS
- Know-how in the management of extensive projects
- Outstanding leadership skills, pronounced moderation and presentation skills
- High level of commitment and flexibility
- Fluent English and German

**We offer you:**

- Challenging and multifaceted tasks
- Assuming responsibility in an international environment
- Attractive, performance-based remuneration
- Integration into a committed and competent team
- Projects at well-known companies
- Mobile work
- Smartphone & company car incl. private use (by agreement)

We look forward to receiving your meaningful application documents stating your earliest possible starting date and your salary expectations by e-mail to:

**IMIG Industry Consult GmbH**
